Parents/Relatives will receive and email from SpotTV including Username

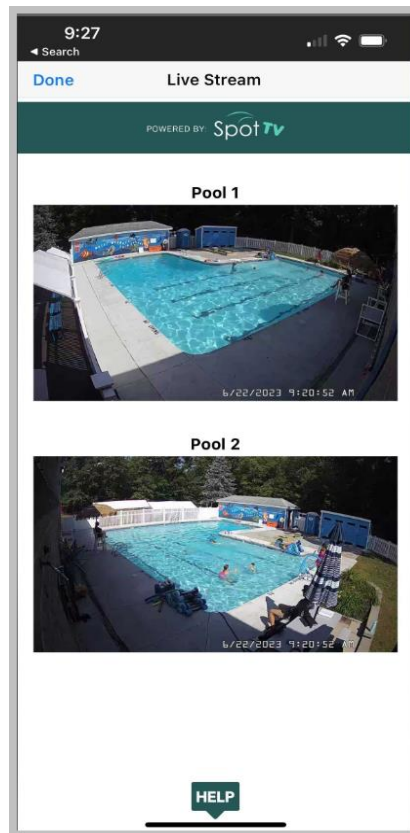

Let the show begin...

From the app >Live icon

>View live during appropriate class times/days

A few more notes.....

To allow family members, grandparents, aunts, uncles etc access to spot tv

- You will need to add them to the parent portal under your account using their email address.
- They will then need to set up a password by logging into the portal and clicking the reset button.
- Once they have a password, they will follow the steps outlined throughout this power point to set up viewing through spot tv.

All spot tv requests must be reviewed before access is given. This could take 24-48 hours.

Taking screen shots and video is strictly forbidden and will result in temporary loss of spot tv privileges. Repeated violations of this policy will result in permanent loss of spot tv privileges.

Thank You

That's all folks...

Enjoy the show!
